Organic Coffee Silos

Fazenda Santa Cristina is located on the city of Perdizes, Alto Paranaíba Region, Cerrado vegetation area of Minas Gerais State, Brazil. This organic coffee is produced using plants that come directly from Arabica Specie selected plants. All the process developed on the property is carefully followed by an Agronomist Engineer, ensuring a high-level quality and taste standard to the coffee.

All Activities aim to attend the organic compounds demand, giving sustainability to organic coffee production. The coffee produced on Santa Cristina displays all of the outstand flavors that Cerrado has become world renown for; good body, delicate acidity, and round chocolate.
