View from the farm 

Apaneca-Illamatepec, El Salvador 

Finca Sabanetas has been owned and operated by the Salvador Vides family for over 50 years. The combination of mountainous topography, rainforest micro climate, and rich clay soil create an ideal growing environment for top quality coffee.

The farm has recently adopted the renowned Aida Batlle Selection (ABS) processing methods which deliver an exceptional quality coffee through marrying traditional farming practices, careful cherry selection, and innovative fermentation methods.

The family provides numerous social programs for the community living on the farm as well as providing assistance to the community church, school and medical clinic. This lot is Rainforest Alliance and ABS approved.
